Press Release
May 6th, 2014

NSP Revenue for April Reached NT\$2,555 million Continuing to set a historical high

Neo Solar Power Corporation (3576 TT) ("NSP", or "the Company"), a world-class leading producer of high quality solar cells in Hsinchu, Taiwan, today announced that April revenue reached NT\$ 2,555 million, setting a historical high with a MoM growth rate of 1.46%.

Given the rising market demand and ASP, NSP revenues continue to grow as a result of the increase of shipments. Year-to-Date cumulative revenues reached NT\$ 9,832 million as of April 2014, a +170.02% jump in YoY terms.

Looking into the future, the demand and installations are increasing not only in major markets such as China, Japan, and the United States, but also in emerging markets. These factors brought the global solar industry into a stably-increasing stage. Therefore, a lot of research institutions forecast a constant record high of global installations this year. NSP continuously devotes to R&D in manufacturing process as well as in high efficiency products and expects to maintain the growing revenues benefited from the increasing ASP and shipments in the future.

NSP Consolidated Revenue Report (Unit : NT Million)							
April 2014	Mar 2014	MoM (%)	April 2013	YoY (%)	Accumulated Revenue 2014	Accumulated Revenue 2013	YoY (%)
2,555	2,518	1.46%	1,023	149.82%	9,832	36,15	170.02%

About Neo Solar Power Corporation (3576 TT) (NSP)

Founded in 2005, Neo Solar Power Corporation is a leading manufacturer in producing high performance and high quality PV cells and modules. With core competences in quality, technology, customer service, NSP became the world's largest merchant cell manufacturer by shipment in 2013. Endeavored to make solar energy a competitive energy source, NSP is continuously optimizing production processes and exercising strict quality control in solar products.
